DPGA: Ensuring Inclusion Through Digital Public Infrastructure Using DPGs

Format: Presentation and Brainstorming

Date: 13th March, 2025

Duration: 3hrs (Incl. Q&A)

Target Audience:

Max. no. of Participants: 30

Presenters: DPGA, Co-Develop

Objective:

To equip participants with actionable insights and methodologies for embedding inclusion at every level of Digital Public Infrastructure (DPI) deployment using digital public goods, focusing on digital ID and digital payments. The session aims to:

- Identify key barriers to accessing and using DPI
- Understand country-level mechanisms to measure the use of DPI-based services
- Co-create strategies and methodologies to ensure inclusive DPI deployment

Target Audience:

- Government representatives and policymakers at MOSIP Connect with an emphasis on 50-in-5 countries

Session Outcomes:

- Increased awareness of barriers to DPI access and use
- Shared best practices for measuring and addressing exclusion
- Draft methodologies for embedding inclusion into DPI deployment
- Strengthened collaboration between stakeholders committed to inclusive digital transformation under the framework of 50-in-5

Thank you, and we look forward to your participation in the session!
