ECS PRESENTS

# EXAM ASSURE

A MOSIP INTEGRATED SOLUTION TO PREVENT IDENTITY  
IMPERSONATION

# IDENTITY IMPERSONATION @ COMPETATIVE EXAMS

## PROBLEMS

Identity Impersonation is a widespread challenge faced by institutions conducting large-scale examinations.

# 1

### TRUST DEFICIT

Identity impersonation compromises trust, fairness,

# 2

### MERIT DILUTION

Selection of unsuitable candidates compromises merit.

# 3

### TARNISHES REPUTATION

Sub Optimal processes adversely impacts Institutional Credibility

# 4

### FINANCIAL LOSSES

Re-examinations, investigations, and corrective actions contribute to financial losses

PROPOSED SOLUTION

# ECS EXAM ASSURE

A MOSIP integrated Applicant Identity validation solution to designed to eliminate impersonation of identity

Validates identity during registration and revalidates it at the examination centre

**Verifies candidate's identity at two critical stages—first during registration and again at the examination center.**

Supports multi-factor MOSIP KYC using OTP, Biometric, and IRIS

**Enables multi-modal MOSIP KYC by supporting OTP-, biometric-, and iris-based MOSIP KYC.**

Secure On-Premises Deployment

**Deployed under an on-premises model, ensuring complete security of candidate data**
