BRINGING INNOVATION TO HEALTHCARE

REVOLUTIONISING HEALTHCARE THROUGH DIGITAL IDENTITY

WELCOME TO OpenPHL

OpenPHL.

OUR SOLUTION:
A UNIFIED DIGITAL HEALTH IDENTITY

OpenPHL provides a secure, interoperable platform that centralizes patient health information, accessible only with verified digital consent.

Secure Identity

Leveraging MOSIP Connect for verifiable credentials and robust authentication.

Seamless Interoperability

Connecting disparate health systems for a single, comprehensive patient view.

Patient-Controlled Access

Empowering individuals with full control over their health data sharing.
