

MOSIP
connect

Exhibitor Catalogue

Organisation	About the Booth
<u>ACPL (Access Computech)</u>	The ACPL booth will demonstrate STQC UIDAI-certified L1 fingerprint optical sensors FM220U & FAP 20 AST 300 for MOSIP Authentication. A 20 FP, PCI-EMV Terminals with 8 MP Camera for face capture combined with Fingerprint for all payment applications, as well as card and non-card deployable management server solution.
<u>Accura Technolabs FZ LLC</u>	Team Accura Scan will conduct in-depth discussions and demonstrations of our flagship e-KYC Suite, comprising of high-fidelity MRZ OCR, fingerprint and facial biometrics, and iBeta Level 2 Liveness Check modules.
<u>Alankit</u>	We aim to introduce innovative enhancements to the identity domain and showcase our advanced offerings, including data-capturing software, biometric enrollment solutions, facial verification solutions, and identity printing solutions.
<u>Aratek Biometrics</u>	Aratek's booth will demonstrate a variety of advanced biometric registration solutions, including our biometric enrollment kit, biometric ID enrollment tablet, 4-4-2 live-scan fingerprint scanner, and single fingerprint scanners. We will showcase their applications for national IDs, voter registration, visa application, SIM card registration, and more.
<u>BEL</u>	BEL is a pioneer in providing world-class Defence & Non-Defence solutions in India and abroad. Having expertise and experience in multiple Security-related projects and handling Identity solutions for more than 2 decades, BEL's booth will present Unique Digital Identification (BUDI) solution. As a Technology partner and SI, BEL offers end-to-end BUDI solution.
<u>Bioenable Technologies Pvt. Ltd.</u>	Bioenable will showcase live demonstrations of enrollment devices at its booth, featuring the MOSIP Registration Client paired with cutting-edge devices, including Dual IRIS IU2, Dual IRIS CMITECH BMT20, Slap Scanner Thales DS84C, and Face Capture Cam C600.
<u>BioRugged</u>	BioRugged will demonstrate our MOSIP-compliant enrolment solutions, from tablets to enrolment kits. We

	<p>manufacture mobile solutions to register, identify, and verify individuals using different biometrics modalities quickly and effectively.</p>
<p><u>BixeLab</u></p>	<p>Visitors to the BixeLab booth will get a glimpse into the work of the first NIST/NVLAP-accredited biometrics testing laboratory in the Southern hemisphere. Demos will include a working multi-modal attack detection kit and report booklets.</p>
<p><u>Blueprints</u></p>	<p>Blueprints will showcase the products — Sampan, Pragati, Vridhdhi, Utkarsh, Unnati, Prakhar, and live printing. Our Bluetooth-enabled thermal printer with built-in Aadhar-enabled L1 biometric scanner offers seamless functionality and efficient printing with compact dimensions.</p>
<p><u>Colorplast Systems Private Limited</u></p>	<p>At Colorplast's booth, explore groundbreaking Enrolment-to-Issuance solutions for IDs and electronic land records. Visitors can see demos of state-of-the-art ID cards, e-Passport inlays, and certificates.</p>
<p><u>COPPERNIC</u></p>	<p>Coppernic will be demonstrating the ID Platform FAP50 mobile enrolment tablet. Visitors are welcome to witness and participate in a live mobile enrolment in real time.</p>
<p><u>Credence ID</u></p>	<p>Credence ID's booth will demonstrate the enrolment & authentication of face and fingerprint biometrics using our MOSIP-compliant authentication devices.</p>
<p><u>DigitalTrust Technologies</u></p>	<p>Gain clarity on your country's Digital TRUST program and adoption strategies at our booth. Experience the MOSIP-integrated MyTRUST Platform, offering digital onboarding, authentication, ID wallet (ISO 18013-5, W3VC), digital signatures, and real-time e-consents.</p> <p>Visitors can experience the MyTRUST platform via the QR code on their MOSIP IDs, or with pre-enrolled MOSIP cards.</p>
<p><u>East Consultancy Services Private Limited</u></p>	<p>Explore a wide array of MOSIP-integrated solutions covering diverse use cases, including IVR KYC, MOSIP Auth and KYC Platform, mobile- and web-based MOSIP KYC platform, MOSIP eSign, and MOSIP-integrated RA application.</p>

<p><u>EKEMP INT'L LIMITED</u></p>	<p>Ekemp's booth will showcase demonstrations for mobile biometric authentication and enrolment devices and instant card issuance solutions.</p>
<p><u>EMPTECH</u></p>	<p>Explore cutting-edge identity management solutions at our demo booth, spanning identity establishment to authentication. The showcased products include MOSIP-compliant biometric registration suitcase, digital and physical ID, versatile biometric tablets supporting registration and verification, a robust data management system, and more.</p> <p>Demos will include biometric enrolment, digital ID issuance, identity authentication with digital ID and biometric features.</p>
<p><u>eMudhra</u></p>	<p>Attendees will explore the seamless integration and capabilities of MOSIP within our authentication and enrolment solutions. Our booth will provide an insightful overview of essential components such as OTP-based authentication methods for digital document signing, enrolment devices compatibility, and the setup for manual adjudication processes.</p> <p>Visit the eMudhra booth to experience live demos of our Customer Onboarding and Document Signing flows.</p>
<p><u>Ernst & Young (EY)</u></p>	<p>At the EY demo booth, we will present GenAI MOSIP GPT, a comprehensive solution designed by EY to address any level 1 support issues related to the implementation and operation of MOSIP. Additionally, we will demonstrate a use case illustrating the integration of OpenCRVS and MOSIP. We will also showcase our experience of MOSIP across countries.</p>
<p><u>Evolute Fintech Innovations Private Limited</u></p>	<p>Evolute offers secure individual verification through multi-modal biometrics (face, iris, voice, fingerprint). Trusted by government institutions, we offer all-in-one, compact and robust devices, empower SIs, government entities, and decision-makers with reliable authentication solutions.</p> <p>Meet us to explore demos of authentication and onboarding solution for banks and financial Institutions.</p>
<p><u>Famoco & Newlogic</u></p>	<p>Famoco will demonstrate an eVoucher solution (Social Safenet Program) integrating with OpenSPP and MOSIP</p>

	<p>authentication. This Famoco solution aims to enhance the delivery of Cash & Voucher Assistance with: 1) digital transactions, replacing paper registries with digital records, 2) authentication with secure transactions & respect human privacy, and 3) traceability to monitor deliveries with digital transactions.</p>
<p><u>Feitian Technologies Co., Ltd.</u></p>	<p>We are an information security solution provider and will demonstrate biometric devices with FTM, which will include registration and authentication device at MOSIP Connect. We also provide MDM (mobile device solutions).</p>
<p><u>Folio Technologies Ltd</u></p>	<p>Unlock the potential of government credentials storage and integrations with public and private services in any country. Witness live demos showcasing compatibility with Verifiable Credentials, the use of eSignet onboarding with document verification, face recognition, issuance and storage of MOSIP credentials in Folio wallet.</p>
<p><u>GenKey Solutions BV</u></p>	<p>Experience a range of software devices and solutions at our booth, where we provide information security solutions alongside biometric registration and authentication devices. Witness live demonstrations of our devices and their functionalities.</p>
<p><u>GET Group Holdings</u></p>	<p>Visitors can see MOBILE ID, a high-assurance digital identity solution developed by GET Group that serves foundational, transactional and functional identification purposes. The solution, available on smartphones, provides secure and trustworthy identities using advanced data encryption and communications to simplify identity verification, reinforce data privacy, and support the provisioning of electronic government services.</p>
<p><u>HID</u></p>	<p>As a leader in trusted identities, HID empowers our customers to implement foundational ID systems cost-effectively, while embracing scalability, security and privacy. We will showcase biometric authentication innovations, including fingerprint scanners and facial recognition technology. We will also highlight our secure issuance solutions, including the FARGO® HIP6600 card printer.</p>
<p><u>Identy Inc</u></p>	<p>Identy will demonstrate how to enroll using just a mobile phone. We will tokenise the user's biometrics and</p>

	<p>generate a secure digital ID that can be printed using a laser printer. It is simple, safe, and secure.</p>
<p>IDP CORP. LTD.,</p>	<p>At the MOSIP demo booth for IDP card printers, expect a detailed showcase of printer capabilities, including high-quality printing, security features, and customisation options. Explore sample prints, discuss compatibility with various card types, and learn about maintenance and support services to meet your ID card printing needs effectively.</p>
<p>Impiger Technologies Pvt Ltd</p>	<p>We will showcase our MOSIP integrations for building a functional ID ecosystem for various use cases such as Government Scheme Management, Driving License, Smart ID cards, etc.</p>
<p>Infineon</p>	<p>Infineon Technologies has been supplying smartcard chips for government identity programs in more than 40 countries around the world for more than 20 years. We will showcase live demonstration of our ready-to-go Java Card™ security solution SECORA™ ID optimized for all electronic identification applications.</p> <p>Our solutions enable state printers and card manufacturers to accelerate their time-to-market through ready-to-use applets supporting rapid project migration.</p>
<p>InfyStrat</p>	<p>InfyStrat's booth will include demonstrations and presentations of various solutions, including System Integration, Cloud and Infrastructure, ERP and CRM, Application Development and Maintenance, AI, and Data.</p>
<p>INTEGRA MICRO SYSTEMS PRIVATE LIMITED</p>	<p>Integra provides MOSIP SBI development services for various biometrics devices on different host platforms. Our services encompass SBI integration for HID Global's patrol ID fingerprint slap scanner, Iritech's IriShield-USB BK2121 U IRIS scanner, SBI 2.0 services for SPARSHID Authentication device by Aqtronics Private Limited, and Squirrel-RBT Integra Bluetooth Biometric Device.</p>
<p>Integrated Biometrics</p>	<p>IB™s FBI-certified fingerprint scanners provide enrolment, identification, and verification from single-finger to palm. The line currently includes three MOSIP-compliant scanners, that will be available for demos at MOSIP Connect: Kojak, Five-0, and Watson. IB has also achieved compliance for MOSIP for Android, further</p>

	enhancing its offerings for helping nations and governments that wish to implement digital, foundational ID systems.
<u>iProov</u>	iProov will demonstrate facial biometric authentication to MOSIP Digital Wallet “Inji”, so a digital Verifiable credential can be issued to a citizen, and later Identity Verification of that citizen can be verified in Voting Registration, SIM Registration, and other high assurance use cases. Also, iProov Physical Access solution, when combined with the remote onboarding of a user, allows for seamless border crossing, access to authorised premises.
<u>Iris ID Systems, Inc.</u>	We will showcase the iCAM T10, a high-quality dual iris capture handheld biometric camera. Ideal for rugged environments, this solution is currently used in many African countries. Visit our booth to learn about our suite of products that the largest global brands and governments use for identity authentication and management.
<u>IriTech Inc.</u>	IriTech will conduct demos on MOSIP-compliant iris cameras for enrolment and authentication purposes, with different form factors for easy integration and usage.
<u>Kaizen Secure Voiz</u>	Voice Biometrics is an indigenous biometrics authentication engine where users have to register their voiceprint for 20 seconds, in any language. In our demo, we will let visitors register their voiceprint in our engine for seamless authentication and verification.
<u>Laxton</u>	Laxton will demonstrate enrolment using integrated multi-modal registration desktops for office environments, and mobile registration kits and rugged tablets for outdoor use.
<u>Madras Security Printers Pvt Ltd</u>	Madras Security Printers Pvt. Ltd. is a 42-year-old company, specializing in e-governance solutions, Track and Trace Solutions, Smart City ICT implementation, Smart card-based solutions, Identity management and Biometric solutions, Datacenter & IT/ITeS solutions and High Security printing. Visit our booth for demonstrations including security printing, and SI capabilities.
<u>Mantra Smart Identity Private Limited</u>	Mantra will showcase MOSIP-compliant enrolment devices for Face, Finger, and Iris, along with

	<p>Authentication devices for finger biometrics. Additionally, our demo will feature e-KYC software for Face. This demonstration will emphasize the robustness and efficiency of MOSIP-related services for secure and reliable identity management, encompassing enrolment, authentication, and e-KYC processes.</p>
<p><u>Marksure</u></p>	<p>At the Marksure booth, we proudly present our revolutionary product – the Marksure Identity Card. This groundbreaking solution has been completely re-engineered from the ground up, providing unparalleled security, verifiability, economy, and efficiency. We are eager to engage in a discussion with you on how you can swiftly deploy this exceptional card under even the most demanding circumstances.</p>
<p><u>Neurotechnology</u></p>	<p>Neurotechnology is a developer of high-precision biometric algorithms and their related multiplatform solutions MegaMatcher SDK and MegaMatcher ABIS, that are both certified as MOSIP-compliant products. Neurotechnology will show different use cases of their ABIS and other products.</p>
<p><u>Next Biometrics</u></p>	<p>Next Biometrics invites you to experience the world's best thermal fingerprint sensors, authentication devices, biometric readers, and biometric point-of-sale devices firsthand. Join us for a live demonstration showcasing the capabilities of our biometric reader.</p>
<p><u>NPRIME TECHNOLOGIES PRIVATE LIMITED</u></p>	<p>NPrime will demonstrate face enrollment SBI and fingerprint authentication SBI for Windows and Android. Visit us for live demonstrations!</p>
<p><u>OpenCRVS</u></p>	<p>OpenCRVS offers a comprehensive demonstration of its solution, along with integrations with MOSIP. Drop by to ask us about CRVS digitisation, how OpenCRVS can support your digitisation objectives, and how integration between CR and ID can build foundational DPI.</p>
<p><u>OVD Kinegram AG</u></p>	<p>OVD Kinegram AG presents an introduction to Visible Digital Seal BIO, offering an extra layer of protection and high accuracy in face recognition; an ideal component to protect and authenticate the holders personal data. Experience the introduction of KINEGRAM Easy-Card for instant issuance of temporary IDs. Both products are seamlessly integrated into existing document issuance processes.</p>

	<p>We will demonstrate the Visible Digital Seal BIO and KINEGRAM Easy-Card.</p>
<p><u>Protean eGov Technologies Limited</u></p>	<p>Protean will showcase real-world use cases around DPI as packaged solutions in Agri Stack, Education & Skilling, Commerce & Mobility. Demos will be conducted on key Digital Public Infrastructures such as Agristack, Commerce and more.</p>
<p><u>Simprints</u></p>	<p>Meet the team behind Simprints biometric solutions — ethical, privacy-first biometrics technology that is now open source. Our technical and project experts will be on hand to talk to you about our technology, interoperability and current range of projects across 17 countries and counting.</p> <p>See live demos of enrollment, identification, and verification using face and fingerprint modalities. We are also displaying a 4-minute video on loop showing how we are strengthening a local routine immunisation programme in Ghana.</p>
<p><u>Sphereon</u></p>	<p>At our booth, engage with a seasoned consultant to explore use cases and insights into this groundbreaking technology. Experience a live demonstration showcasing the practical application of verifiable credentials.</p> <p>Explore a live demo showcasing the use of MOSIP-issued verifiable digital credentials on mobile for banking or mobile plan subscriptions.</p>
<p><u>Step Innovations Africa</u></p>	<p>Step Innovations Africa presents comprehensive identity lifecycle management solutions, from pre-registration to digital signature authentication. Visitors can experience pre-registration, issuance of new IDs for adults and infants, ID updates, deactivation/reactivation, lost ID management, and corrections. e-KYC through AI-based customer onboarding, ID verification, facial recognition, financial assessment, AML compliance and digital signature authentication.</p>
<p><u>TECH5</u></p>	<p>TECH5 will demonstrate its latest technologies for contactless biometric capture, Digital ID issuance and verification. Demos will include usage of mobile devices, as well as provide information about TECH5's innovations and partnership opportunities.</p>

<p><u>Technoforte Software Pvt Ltd</u></p>	<p>Technoforte Software Pvt Ltd presents product demos on MOSIP, OpenG2P, and OpenCRVS, featuring pre-built integrations. Join us to witness these demonstrations and learn about their potential applications.</p>
<p><u>Technology Associates (TA)</u></p>	<p>Technology Associates (TA), a 25-year leader in Sub-Sahara Africa, operates in 7 countries. As the first African registered MOSIP Systems Integrator, TA specializes in turnkey country ID programs. Our comprehensive portfolio includes infrastructure, network, security, enrollment, personalization, ABIS, key management, etc.TA shall demonstrate the latest live, OnPrem deployment of MOSIP modules, its authentication/verification via the INJI App, and unique cluster management walkthroughs.</p>
<p><u>Thales</u></p>	<p>Thales is a leader in biometrics and digital Identity, able to deliver MOSIP-compliant components: ABIS, Biometric SDK, devices, and digital wallets. Thales is MOSIP SI certified and, thanks to extensive experience in large scale Identity systems, is a trusted partner for deployment of nationwide digital infrastructures.</p> <p>We will present an end-to-end live demo showcasing enrolment, biometric deduplication and generation of a digital credential.</p>
<p><u>Xperix Inc.</u></p>	<p>Xperix will demonstrate the RS-G10 and RS-S60 ten print MOSIP-compliant enrolment scanners via the MOSIP Secure Biometric Interface (SBI). The RS-G10 has been deployed in many national projects across the globe such as ID and voter registration. The RS-S60 is an ultra slim, lightweight and PAD Level 2 compliant TFT scanner perfect for mobile applications.</p>

Disclaimer

The Solution Discovery space will showcase demonstrations of MOSIP-compliant, MOSIP-integrated, and independent technology solutions. MOSIP does not recommend any solutions over others. Adopters are expected to conduct due diligence before planning the adoption of these solutions. Please note that contactless fingerprinting, palm vein, voice biometrics etc. are new technology demonstrations, and are not production-ready with MOSIP yet.
