Inclusion-Led Design of Technology

Nadeem Kalariya | UX Architect, MOSIP

Pragya Kumari | Product Owner, MOSIP

### What is MOSIP's goal around inclusivity?

To build modular, secure, open-source, human-centric and inclusive software solutions

To provide equal access to resources for people who might otherwise be excluded

### What are the areas where we are bringing in inclusivity?

### Administration

Design solution to reduce technology barrier. Eg: Database Administration, Data Sharding, Rancher

### Process

We design solutions in a way to make sure our services are inclusive. E.g.: Exception Marking, Introducers, Mobility, Offline verification

### APIs

Our APIs are tuned to support the inclusivity design. Eg: USSD , eSignet, Token Seeder

### UI/UX

We have been relentlessly working on making our User Interface and User Experience to lower the digital entry barrier

## MOSIP-OSU Collaboration

MOSIP inclusion fellowship at OSU

Support a fellow to work with MOSIP team

5

### Personas

Abi: (Abigail/ Abishek)

45 years old, Home maker, Literate, Not tech-savvy, Has moderate internet connectivity, does not own a personal phone

### Tim: (Timothy/ Timara)

24 years old, Financial Consultant, Literate, Tech Savvy, Has excellent internet connectivity, has the latest phone

Facet	Abi	Tim		
Motivation	Uses technology to accomplish her task	Uses technology to explore new exciting features		
Computer Self-efficacy	Is not comfortable with new technology	Has high confidence with technology		
Attitude towards risk	Is risk adverse and not want to try anything new	Doesn't mind taking risk with technology		
Information Processing Style	Gathers information before acting upon the first promising solution	Goes with the first promising solution		
Learning by Process Vs Tinkering	Leans towards process-oriented learning like referring to FAQs, video guides etc.	Likes tinkering to explore new features		

### **Perception of Visual Elements**

### Abi v/s Tim

### **Inclusivity Evaluation Procedure**

Roles

Facilitator

Driver

Recorder

**Evaluator** 

### **Process**

**Overall goal:** Download UIN card

**Sub goal** Think of entering UIN

Action Enter UIN number

**After Action** Know if she did the right thing

Inclusivity issues and usability issues

Incorporate UI changes

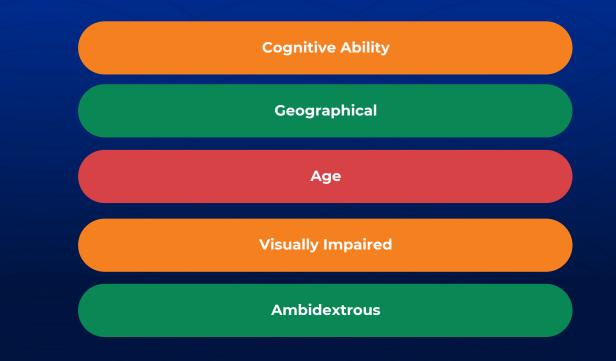

### **Results** of GenderMag Analysis

	Features Analysed		Issues Identified		Issues Fixed
