

OpenG2P 101

Format: Presentation and Demonstration

Date: 11th/12th February, 2026

Duration: 75 mins (Including Q&A)

Target Audience: Countries, SIs

Targeted Expertise/Roles: Developers, Technical Architects, Technical BA

Max. no. of Participants: 40

Pre-requisites: Pre-registration for the session, Review pre-read material

Presenters: OpenG2P Team

Objective:

The objective of this session is to introduce OpenG2P's open-source Government-to-Person delivery software to the audience. It aims to familiarise the audience with the technology offerings as well as help them understand how to deploy and operate OpenG2P. Participants will learn about the benefits delivery chain and how the building blocks can be connected to effectively deliver social benefits and services, whether they are digital cash transfers, in-kind goods, or vouchers. The session will cover the primary functionality and key features of the core modules:

- Registry
- PBMS
- SPAR
- G2P Bridge

The session will also touch upon the practical use cases of OpenG2P from around the world, as well as the various types of support offered by OpenG2P to countries and ecosystem partners.

Pre-Read Links for Participants:

It is recommended that participants

- Visit openg2p.org to learn about OpenG2P's birth, history, governance, principles, news, and events
- Peruse OpenG2P documentation overview at docs.openg2p.org

Session Outcomes:

At the end of the session, participants will be able to

- Understand the core OpenG2P modules, their key features, and capabilities.
- Learn the process for deploying and maintaining OpenG2P.
- Identify and understand OpenG2P's practical use cases

Thank you. We look forward to your participation in the session!
