

Building Trust in Cross- Border Identity: Interoperability Discovery Workshop on Authentication

Chair: Andrew A. Musoke

The Upanzi Digital Public Infrastructure Network

- Knowledge co-Creation
- Solution co-Designing
- Technology Transfer
- Capacity Building
- Lab Replication

The Alan Turing Institute

The Alan Turing Institute is the national institute for data science and artificial intelligence.

- Innovate and develop world-class research
- Tackle real-world problems
- Train the next generation of data science and AI leaders
- Advise policy-makers and shape the public conversation

Motivation

Who benefits?

Motivation

- Interoperable, trusted and inclusive digital foundational ID crucial for the success of AfCFTA
- The EAC interstate pass is a boost to the regions economy but still limited to travel.
- ID should be accessible, inclusive and afford utility

Challenges in cross-border ID on the continent

- Lack of standardized systems.
- Data security and privacy concerns while maintaining inclusion.
- Technological and economic disparity
- Legal and regulatory incompatibility across diverse
- Limited continental collaboration
- Etc...

Workshop Overview

1. Team formation: 5 minutes
2. Round Table Discussion: 30 minutes
3. Team Presentations: 3-5 minutes each
4. Open Discussion Session: 10 minutes
5. Identification of Top Challenges and next steps (formation of Working Group): 10 minutes

Workshop Organization

1. **Collaboration Opportunities:** Identifying opportunities for collaboration between different entities to enhance cross-border identity authentication.
Moderator: Furaha Benedict
2. **Technological Challenges in Authentication Protocols:** Identifying the technical challenges experienced with different authentication methods and protocols to create trustworthy cross-border identity systems.
Moderator: Paul Ewuzie
3. **The Role of Standards to Enhance Privacy and Security in Interoperable Systems**
Moderator: Jon Crowcroft
4. **Case Studies:** Presenting real-world case studies of successful cross-border identity initiatives, focusing on authentication strategies.
Moderator: Bernard Lamptey
5. **Legal and Regulatory Frameworks Governing Unified Trust Registry:** Exploring the feasibility of cross-border identity verification and authentication through trust registries through the legal and regulatory lens.
Moderator: Lenah Chacha

Outcome of The Discussion

1. Identifying challenges
2. Motivate why the problem is important in our context
3. Explore the current approach to the problem
4. List potential solutions

Round Table Discussion

- 30 min

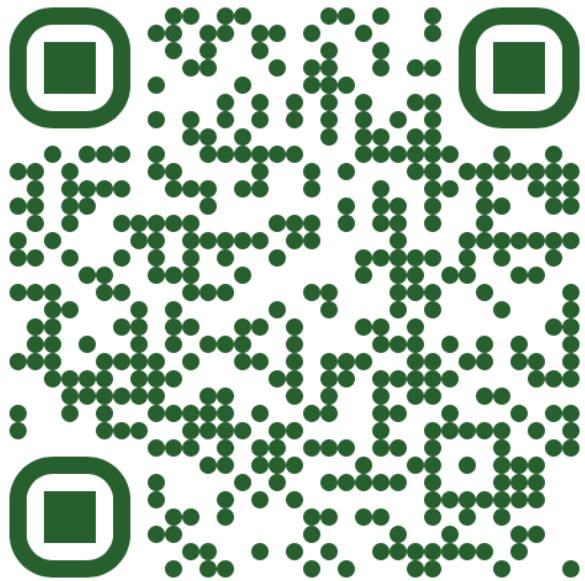

Team Presentations

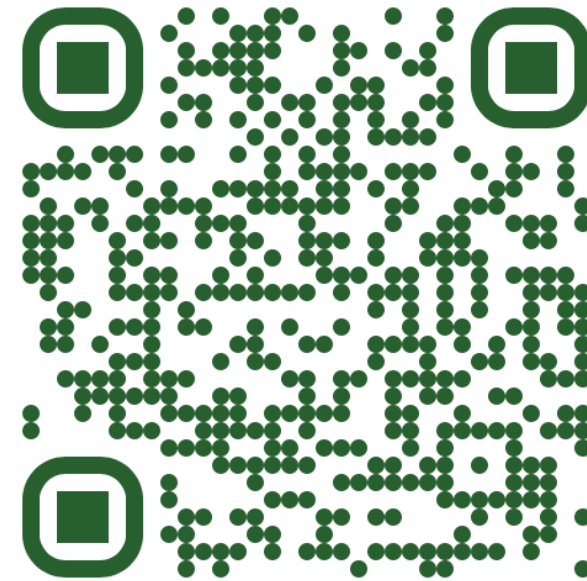

Open Discussion Session

Summary and Way Forward
